

LOGICAL EXPRESSIONS, INC.
SOFTWARE LICENSE AGREEMENT

This license is a legal agreement between Logical Expressions, Inc. ("LEI") and the end user ("Licensee") of LEI-developed shareware products ("Software"). By using the Software, Licensee agrees to the terms set forth by this license.

Licensee possession, purchase, use or evaluation of the Software does not transfer title to the Software itself. Licensee use of the Software must be made in accordance with the terms of this license agreement. LEI reserves all rights not specifically granted herein.

1. GRANT OF LICENSE

(a) License Agreement. Licensees may purchase an Individual License, a Company License, or a Server License. Individual Licensees may install the Software on any computer as long as Licensee is the sole person using the Software. Company Licensees may install the Software on any computer that is owned by Licensee and operated by persons employed by Licensee. Server Licensees may install the Software on a single computer and allow all persons who use that computer to execute the software.

(b) License Transfer. Licensees may transfer this License together with the Software to another person (if Individual License) or company (if Company License) who agrees to become bound by the terms and conditions of this License, and who notifies LEI in writing of the transfer. Upon any such transfer, all Licensee rights hereunder shall end.

(c) Backup. LEI grants the Licensee the non-exclusive right to copy the Software for backup purposes. All backup copies shall be deemed "Software" under this License and shall include all copyright, trademark and proprietary rights notices contained in or on the Software.

2. GENERAL TERMS

(a) License Term. This license will become effective on the date Licensee accepts its terms and conditions during installation of the Software and will remain in force until terminated. Licensee may terminate this License at any time by discontinuing all use of and destroying the Software together with all copies and adaptations. This License shall automatically terminate if Licensee breaches any of the terms and conditions of this License. Licensee agrees to destroy the original and all copies or adaptations of the Software, or to return them to LEI upon termination of this License.

(b) Export. Licensee hereby acknowledges and agrees that the Software is subject to restrictions and controls imposed by the United States Export Administration Act (the "Act") and the regulations thereunder. Further, Licensee agrees that neither the Software nor any direct product thereof is being or will be acquired, shipped, transferred (including, but not limited to, electronic transmission), exported, or reexported, directly or indirectly, into any country, to any end-user, or for any end-use prohibited by the Act and the regulations thereunder.

(c) Decompilation. The Software is distributed in object code only. Licensee may not reverse engineer, decompile, or disassemble the Software, except and only to the extent that such activity is expressly permitted by applicable law notwithstanding this limitation.

(d) Rental. Licensee may not rent, lease, or lend this Software, except as follows: If Licensee operates a Web site hosting company and has purchased a Company License for the Software, Licensee may install the Software on all servers owned by Licensee and allow all sites hosted on those servers to use the Software. Licensee may not charge a separate fee for using the Software but may bundle its use as part of a standard hosting package. A "standard" hosting package is a hosting service offering that would be priced the same with or without the inclusion of the Software.

(e) Distribution. This License does not grant royalty-free distribution rights. If Licensee uses the Software as a component of another work that is sold to or developed for a third party, the third party must purchase a License to use the Software.

(f) Trademark. This License does not grant the Licensee any rights in connection with the trademarks or service marks of Logical Expressions, Inc.

(g) Entire License. This License sets forth the entire understanding and License between Licensee and LEI and may be amended only in a writing signed by both parties. No vendor, distributor, dealer, retailer, sales person, or other person is authorized to modify this license or to make any warranty, representation, or promise which is different than, or in addition to, the warranty, representations, or promises of this license.

(h) Waiver. No waiver of any right under this License shall be effective unless in writing, signed by a duly authorized representative of the party to be bound. No waiver of any past or present right arising from any breach or failure to perform shall be deemed to be a waiver of any future right arising under this License.

(i) Severability. If any provision in this License is invalid or unenforceable, that provision shall be construed, limited, modified or, if necessary, severed, to the extent necessary, to eliminate its invalidity or unenforceability, and the other provisions of this License shall remain unaffected.

3. WARRANTY DISCLAIMER

(a) LEI does not warrant that the Software will meet Licensee requirements or that the operation of the Software will be uninterrupted or error free. Licensee agrees to use the software at Licensee's own risk.

(b) LEI is not responsible for any problems or damage caused by the software or that may result from using the software, whether licensed or not. This includes, but is not limited to, computer hardware, computer software, operating systems, and any computer or computing accessories. Licensee agrees to hold Logical Expressions, Inc. and/or any persons associated with the creation of this software harmless for any problems arising from the use of the software.

4. GOVERNING LAW

(a) Except as otherwise restricted by law, this License shall be governed by the laws of the State of Idaho of the United States of America. Furthermore, it is understood that this License shall be treated as though it was executed in Bonner County of the State of Idaho. The parties agree that any action relating to this License shall be instituted and prosecuted in the courts of competent jurisdiction of the State of Idaho.

5. NOTICE TO UNITED STATES GOVERNMENT END USERS

(a) The Software and any supporting documentation was developed at private expense with no government funds and is a trade secret of Logical Expressions, Inc. for all purposes of the Freedom of Information Act.

(b) The software and documentation are "Commercial Items," and are being licensed to U.S. Government end users subject to limited utilization as provided in this agreement.
